"If he gets back within the next hour, better ring me at his place so I can scoot." "Hasn't the sheriff's department already reached a determination of accidental death?" Parkhurst asked. "They're good men, good cops, every last one of them," said Vanadiuin, "and if they've got more pity in them than I do, that's a virtue, not a shortcoming. What could Mr. Cain have taken to make himself vomit?". The gray pants of her jogging suit, speckled with rain that had blown in through the shattered windshield, were suddenly soaked. Her water had broken..She asked Edom to stay in the main house, so Barty wouldn't be alone while she visited Maria Gonzalez for an hour or two. He was pleased to oblige, settling down to watch a television documentary about volcanoes, which promised to include stories

about the 1902 eruption of Mont Pelee, on Martinique, which killed 28,000 people within minutes, and other disasters of colossal proportions. In his blindness, Barty listened to her reports and, through her, saw more than he could have seen if never he had lost his eyes. Two more uniformed officers had entered the kitchen, fresh from their search of the apartment. They were amused. His breath was warm against her throat: "And I want to go back home to see some faces." He produced her coat as if by legerdemain. Magically, she found her arms in the sleeves and the collar around her neck, though given her size lately, putting on anything other than a hat usually required strategy and persistence. "He's blind, sure, but he's also a boy," Angel said, "and trees are something that boys gotta do." On Sunday, New Year's Eve, Edom and Jacob came for dinner. Following dessert, when Barty went to his room to continue reading Starman Jones, which he had begun late that afternoon, Agnes told her brothers the truth about their nephew's eyes. Surprisingly, he received a lot of gratification from voicing this insult, even though Vanadium was too dead to hear it. "I never saw a Moor--never saw the Sea--Yet know I how the Heather looks--And what a Billow be." Sliding one hand lightly along the railing, the boy quickly descended the short flight of steps and walked onto the soggy lawn, into the rain. San Francisco's pre-Christmas cheer had deserted it. The glow and glitter of the season had given way to a mood as dark and ominous as *The Cancer Lurks Unseen, Version 1*. In the kitchen, Barty sat at the table, and Paul's heart pinched at the sight of the boy in padded eyepatches. "We have dams, though," said Jacob, gesturing with his fork. "The Johnstown Flood, 1889. Pennsylvania, sure, but it could happen here. And that was a one, let me tell you. The South Fork Dam broke. Wall of water seventy feet high totally destroyed the city. Your tornado killed almost seven hundred, but my dam killed two thousand two hundred and nine. Ninety-nine entire families were swept from the earth. Ninety-eight children lost both parents." Indeed, the winter storm had dampened neither his hair nor his clothes. The rain appeared to slide away from him a millimeter before contact, as though the water and the man were composed of matter and antimatter that must either repel each other or, on contact, trigger a cataclysmic blast that would shatter the very foundation of the universe. Leaving the engine running and the heater on, he got out of the car, leaned back inside, said, "Better lock up while I'm gone," and then closed his door. Soon he dispensed with picture books and progressed to short novels for more accomplished readers, and then rapidly to books meant for young adults. Tom Swift adventures and Nancy Drew mysteries captivated him through the summer and early autumn. you greater strength and determination than any other motive. But you should know this much.... You need to keep her safe for another reason. She's special. I don't want to explain why she's special or how I know that she is, because this isn't the time or place, not with your dad's death and Wally in the hospital and you still shaky from the attack. "Sometimes these sympathetic vibrations are very apparent, but alot of the time, they're so subtle that you can hear them only if you're unusually perceptive." Only madmen were capable of such butchery. Hopeless lunatics like Ed Gein, out there in Wisconsin, arrested just seven years ago, when Junior had been sixteen. Ed, the inspiration for Psycho, had constructed mobiles out of human noses and lips. He used human skin to make lampshades and to upholster furniture. His soup bowls had once been human skulls. He ate the hearts and selected other organs of his victims, wore a belt fashioned from nipples, and occasionally danced under the moon while masked by the scalp and face of a woman he had murdered. The runt was so out of proportion to his office furniture that he appeared to be a bug perched in the giant leather executive chair, which itself looked like the maw of a Venus's--flytrap about to swallow him for lunch. He allowed such a lengthy silence to follow Junior's question that by the time he answered, his reply was superfluous. Rudy's blue suit, as usual, pinched and shorted his shambling frame. Here in a boneyard, he appeared to be not just a man with a bad tailor, but a grave robber who looted the dead for his wardrobe. He needed to keep moving, conduct the search, find the watch, and get the hell out of here, but he couldn't stop staring at the musician. Something about the cadaver made him nervous--aside from the fact that it was dead and disgusting and, if he was caught with it, a one-way ticket to the gas chamber. The bow business had started a few months ago. Angel said she wanted to look pretty in her sleep, in case she met a handsome prince in her dreams. In the face of his kindness, however, she couldn't refuse his request. She nodded. "Last time I looked, Miss Galloway lived to the south of us. Retired. Never married. No children." To celebrate, upon leaving the gallery, he went to the coffee shop in the Fairmont Hotel, atop Nob Hill, determined to have a beer and a cheeseburger. He still had a sour taste in his mouth, although it was not as disgusting as it had been. All the odors were wonderfully clean and bracing--antiseptics, floor wax, freshly laundered bedsheets--without a whiff of. Aware that his tension was building intolerably, Junior decided that he needed Scamp more than he dreaded her. He spent the remainder of Wednesday, until dawn Thursday, with the indefatigable redhead, whose bedroom contained a vast collection of scented massage oils in sufficient volume to fragrantly lubricate half the rolling stock of every railroad company doing business west of the Mississippi. As was true of the entire house, the bedroom was immaculate. The wood floor gleamed as though polished by hand. A simple white chenille spread conformed to the bed as smoothly and tautly as the top blanket tucked around a soldier's barracks bunk. Looking from one to another of his companions, Tom said, "When I think of everything that had to happen to bring us here tonight, the tragedies as well as the happy turns of fortune, when I think of the many ways things might have been, with all of us scattered and some of us never having met, I know we belong here, for we've arrived against all odds." His gaze traveled back to Agnes, and he gave her the answer that he knew she hoped to hear. "This boy and this girl were born to meet, for reasons only time will reveal, and all of us ... we're the instruments of some strange destiny." The big-headed, bulging-eyed, slit-mouthed runt had collected \$850,000 from Naomi's death, so the least he could do was provide a little information. He'd probably bill for the time, anyway. "I get frustrated," he admitted. "Trying to learn how to do things in the dark ... I get peed off, as they say." In the kitchen were a radio, a toaster, a coffeepot, two place settings of cheap flatware, a small mismatched collection of thrift-shop plates and bowls and mugs, and a freezer full of TV dinners and English muffins. people that he was innocent and, in fact, constitutionally incapable of premeditated murder. After she flushed, Angel stood on a stepstool and washed her hands at the sink. on both sides of the property, the neighbors can't see, but some know, have always known, and have less interest. Both the red and the white wines were too cheap for Junior's taste' so he drank Dos Equis beer and got two kinds of high by inhaling enough secondhand pot smoke to cure the state of Virginia's entire annual production of hams. Among the two or three hundred partyers, some were tripping on some exhibited the particular excitability and talkativeness typical of cokeheads, but Junior succumbed to none of these temptations. Self-improvement and self control mattered to him; he didn't approve of this degree of self indulgence. Prepared for any contingency, Junior listened to the house until he was certain that he needed the knife for no one else. In the top drawer, in addition to the expected items, Tom Vanadium found a gallery brochure for an art exhibition. In the hooded flashlight beam, the name Celestina White seemed to flare off the glossy paper as though printed in reflective ink. the stems, thorns sharp against his tongue.

And then Agnes. Agnes in the yard, screaming. He was in a mood to shoot her, but this weapon was not fitted with a sound-suppressor. He'd left that gun in Celestina's bedroom. This was the pistol that he had taken from Frieda Bliss's collection, and it was as full of sound as Frieda had been full of spew. Strangely, as sometimes happened in this room, his missing toe itched. There was no point in removing his shoe and sock to scratch the stump, because that would provide no relief. Curiously, the itch was in the phantom toe itself, where it could never be scratched. From the bathroom, Junior gathered an electric razor and toiletries. He added these to the suitcases. Neddy favored a quick greeting, two curt pumps, but Junior held fast after the handshake was over. He didn't grind the musician's knuckles, nothing so crude, just held on pleasantly but firmly. His intention was to confuse and further rattle the man, taking advantage of his obvious dislike of having his personal space encroached upon, in the hope that Neddy would reveal why he'd been watching Junior so intently from across the room. Off the hard surfaces of cabinets, refrigerator, and ovens, the twin reports crashed and rattled. The windowpanes briefly thrummed. Lientery's work met the criteria of great art, about which Junior had learned in art-appreciation courses. It undermined his sense of reality, left him wary, filled him with angst and with loathing for the human condition, and made him wish he hadn't just eaten dinner. Shivering, Junior slammed the trunk lid and warily surveyed the lonely landscape. Black pines spread bristled arms through the chary night, and the moon cast down a jaundiced light that seemed to obscure more than it illuminated. He feared that suicide was a ticket to Hell, and he knew that sinless Perri was not waiting for him in those lower realms. This was a memory, not a real voice. Even after you became an accomplished meditator, the mind resisted this degree of blissful oblivion and tried to sabotage it with aural and visual memories. On New Year's Day, the town learned that it had lost its first son in Vietnam. Agnes had known the parents all her life, and she despaired that even with her willingness to help, with all her good intentions, there was nothing she could do to ease their pain. She recalled her anguish as she'd waited to learn if Barty's eye tumors had spread along the optic nerve to his brain. The thought of her neighbors losing a child to war made her turn to Paul in the night. "Just hold me," she murmured. Precisely what type of prodigy Barty might be was initially not easy to deduce. He revealed many talents rather than just one. He must be careful in his approach to her. He dared not rush into this. Think it through. Devise a strategy. This valuable opportunity must not be wasted. Since the cops believed that Junior accidentally shot himself while searching for a nonexistent burglar, he was already in their book as an idiot. If he tried to explain how Vanadium had tormented him with the quarter, and how a quarter turned up, of all places, in his cheeseburger, they would figure him for a hopeless hysteric. Still seeking some missing fact, some insight that would help him understand the maniac's Bartholomew obsession, Tom asked more questions until Celestina suddenly realized and revealed what might be the information that he sought: Cain's perverse insistence on playing the reverend's taped rough draft of "This Momentous Day" throughout his long assault on her sister. These kids were the same age, yet listening to them was akin to hearing Angel do her charming shtick with an adult who had a lot of patience, a sense of humor, and an awareness of generational ironies. Agnes met them, pulling Grace and Angel to her side. Her eyes were bright with excitement. "Tom, you're a man of faith, even if you've sometimes been troubled in it. Tell me what you make of all this." He had nothing against Negroes. He didn't wish them ill. He wasn't prejudiced. Live and let live. He believed that as long as they stayed with their own kind and abided by the rules of a polite society, like everyone else, they had a right to live in peace. The previous April, the lads from Liverpool had claimed all five of the top five. Real Americans, like the Beach Boys and the Four Seasons, were forced to settle for lower numbers. It made you wonder who had really won the Revolutionary War. Indeed, subconsciously, she had known that Nella was gone since receiving the call at 4:15 this morning. When the old woman had finished what she needed to say, the silence on the line had been eerily perfect, without one crackle of static or electronic murmur, unlike anything Celestina had ever heard on a telephone before. Junior stalked her, but she eluded him. Always, the song seemed to arise from the next room, but when he passed through the doorway into that space, the voice then sounded as if it came from the room that he'd just left. The various flavors of canned soda were always racked in the same order, allowing Barty to select what he wanted without error. He got orange for Angel, root beer for himself, and closed the refrigerator. I'm not the first to observe that much of what quantum mechanics reveals about the nature of reality is uncannily compatible with faith, specifically with the concept of a created universe. Several fine physicists have written about this before me. As far as I am aware, however, the notion that human relationships reflect quantum mechanics is fresh with this book: Every human life is intricately connected to every other on a level as profound as the subatomic level in the physical world; underlying every apparent chaos is strange order; and "spooky effects at a distance," as the quantum-savvy put it, are as easily observed in human society as in atomic, molecular, and other physical systems. In this story, Tom Vanadium must simplify and condense complex aspects of quantum mechanics into a few sentences in a single chapter, because although he isn't aware that he's a fictional character, he is obliged to be entertaining. I hope that any physicists reading this will have mercy on him. Leashed like a dog, he walked along, sullen and shivering with sickness and rage. He stared around him, seeing the stone tower, stacks of wood by its wide doorway, rusty wheels and machines by a pit, great heaps of gravel and clay. Turning his sore head made him dizzy. "Now, I'm doubtless," Vanadium said, his voice returning to the uninflected drone that Junior had come to loathe but that he now preferred to the unsettling voice of quiet passion. "No matter what the situation, no matter how knotty the question, I always know what to do. He knew that he needed to get a grip on himself. But he could not keep his breathing slow and deep, couldn't remember any of Zedd's other foolproof methods of self-control, couldn't recall a single useful meditative technique. Jacob had spent most of two days baking Barty's favorite pies, cakes, and cookies, and he'd prepared a meal as well. Maria's girls were at her sister's place this evening, so she stayed for dinner. Edom poured wine for everyone but Barty, root beer for the guest of honor, and while this couldn't be called a celebration, Agnes's spirits were lifted by a sense of normality, of hope, of family. Mysteriously, on the first day of sunny weather in weeks, the 707 had crashed into Jamaica Bay, Queens, killing everyone aboard. Now, in 1965, it remained the worst commercial-aviation disaster in the nation's history, and because of the unprecedented dramatic television coverage, the story was a permanent scar in Celestina's memory, although she had been living a continent away at the time. A dry laugh escaped the detective, but it had none of the warmth of most people's laughter. "You're not bad, Enoch. You're just not as good as you think you are." Rhythmic breathing. Slow and deep. Slow and deep. Per Zedd, the route to tranquility is through the lungs. Since childhood, he had been waiting for this moment-if indeed it was The Moment-and he had nearly lost hope that the much-desired encounter would ever come to pass. He had expected to find others with his perceptions among physicists or mathematicians, among monks or mystics, but never in the form of a three-year-old girl dressed all in midnight-blue except for a red belt and two red hair bows. excited, shrieking. Branch to branch, the flapping of wings is leathery,

demonic. The only other sounds are the thud. Too late for interrogation now, with Vanadium bludgeoned into eternal sleep and resting under many fathoms of cold bedding..An unfortunately bumpy ride for the deceased: along the hallway, through the foyer, across the entry threshold, down the porch steps, across a lawn dappled with pine shadows and yellow moonlight, to the graveled driveway. No complaints.. Succinctly, Edom told Jacob about visiting Obadiah, the magician with the mangled hands. Then: "When we left, I followed Agnes, and Obadiah held me back to say, 'Your secret's safe with me.'" Her fear, Agnes suddenly realized, arose from her father's often expressed conviction that an attempt to excel at anything was a sin that would one day be grievously punished. All forms of amusement were sinful, by his way of thinking, and all those who sought even the simplest entertainment were lost souls; however, those who desired to amuse others were the worse sinners, because they were overflowing with pride, striving to shine, eager to make themselves into false gods, to be praised and adored as only God should be adored. Actors, musicians, singers, novelists were doomed to hell by the very acts of creation which, in their egomania, they saw as the equal of their Creator's work. Striving to excel at anything, in fact, was a sign of corruption in the soul, whether one wanted to be recognized as a superior carpenter or car mechanic, or a grower of prize roses. Talent, in her father's view, was not a gift from God, but from the devil, meant to distract us from prayer, penitence, and duty.. "Will I love you tomorrow, you mean, and the day after tomorrow, and on forever? Of course, forever, Wally, always."
